- 11:50PM – 12:30PM – CH. 14 REVIEW
 - (Emily Hunsaker will help you get this started). Students: Go to www.kahoot.it and wait for the code. Teacher: Use the link provided. This is a “Game” version of their Chapter 14 Review. Each student needs their computer to participate in the Review. After a question is answered, if there are students that got it wrong, please go over the question/answer to ensure they understand the concept.

 - (Put computers away). Pass out the Ch. 14 Test, and vocabulary test. Students need to complete both. This is done individually with no talking. There are “testing offices” in the left cabinet I would prefer they use.
 - When a student has completed their test, they need to complete their minutes on I-Ready (Full 45 for the week). After both the tests, and I-Ready time is complete, they may play games quietly on their computer.

- 1:10PM – 1:15PM – CLEAN UP/RECESS
 - Clean up (desks pushed in, floors clean, etc.). Students will transition to recess.

RECESS – 1:15PM – 1:30PM (PICKUP STUDENTS AT 1:30PM)

- 1:30PM – 2:15PM – LESSON: SOLAR SYSTEM
 - “If you could live on any planet” Worksheet: Students will choose what planet they would live on, other than Earth. They need 7-10 complete sentences before they can turn this in. Have them explain why and draw a picture.
 - Solar System Word Scramble
 - After these are both complete, have them go onto Google Classroom on their Chromebooks and complete the Solar System Quiz under today’s Homeroom Assignment.
 - Once they complete all three things, they can play games quietly. If the whole class finishes, you can play a game as a class (i.e., four corners, heads-up seven-up)
